

RC8 B3 TEAM KIT

Front suspension features pillow ball uprights for increased adjustability and improved durability

7075-T6 aluminum shock towers front and rear feature finely tuned shock mounting and upper arm positions

7075-T6 aluminum 16mm "Big Bore" threaded shocks with TIN coated 3.5mm shafts and larger diameter precision springs

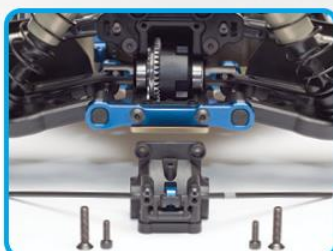

Braking system features bonded pads and machined steel rotors for maximum braking force and reduced fade

Six universal drive shafts for efficient drivetrain power delivery and ease of maintenance

Refined suspension geometry with lower hinge pin inserts for quick and easy roll center adjustments

Gearboxes feature a 3.38:1 internal gear ratio with fast access differentials for quick removal, tuning and maintenance

Light weight one-piece wing mounts feature height and forward positioning adjustment for more precise handling
