For Immediate Release: June 8, 2017

NEW! RC10B64 Club Racer Kit

1:10 Scale 4WD Off Road Electric Club Racer Buggy Kit

It all started with a 1-2-3 sweep at the I.F.M.A.R. World Championships in 2007. Since then, Team Associated 1:10 scale 4WD buggies have held a dominant place at the front of the field. Fast forward to 2017 and our ALL NEW RC10B64 arrives, winning the prestigious Reedy International Off Road Championship right out of the gate!

Ready to get into RC racing? We have a solution for you: the RC10B64 Club Racer Kit! Designed with the entry-level racer in mind, it's fully upgradable to compete at the pro level. The B64 Club Racer comes out of the box with: big bore shocks, three differentials with lightweight internal gears and precision ball bearings. Also included is a Reedy Power 13.5 Fixed Timing Brushless motor, Blackbox 600z Brushless speed control, and high-torque digital servo. The B64 Club Racer boasts speed, durability and lineage expected of a true champion by design!

Additional RC10B64 Club Racer Features:

- Reedy Sonic 540 13.5 Fixed Timing motor produces maximum power output and RPM thanks to an all new stator design, pure copper magnet wire, and low-resistance collector rings. ROAR approved and meets BRCA and IFMAR specs.
- Reedy's Blackbox 600Z Zero Timing Sensored Brushless Competition ESC is a simple-to-use, yet powerful ESC for Spec class racers. Excellent throttle and brake feel, a wide range of adjustability, and robust hardware make the Blackbox 600Z suitable for a variety of Spec racing applications.
- The Reedy 0712MG Metal Gear Digital Servo is race-proven and feature numerous enhancements including precision metal gears for added strength and smooth operation, and an advanced microprocessor that improves vehicle control and on-track performance.
- Lightweight, hard-anodized aluminum chassis with centralized mass
- Graphite front and rear shock towers with multiple mounting positions
- Rear hubs feature large bearings and the easy-insert system to adjust camber link position and rear axle height
- Heavy-duty ball cups and ball studs allow for maximum suspension travel while reducing binding and friction
- Factory Team ball bearing kit included
- Bolt-on steering block arms offer increased adjustability
- JConcepts™ B64 clear body and wing included
