

## Differences Among the B64 Series Vehicles

#90014 RC10B64 Team Kit	#90015 RC10B64D Team Kit	#90016 RC10B64 Club Racer
V2 12mm big bore threaded aluminum shocks with TiN shock shafts	V2 12mm big bore threaded aluminum shocks with TiN shock shafts	V2 12mm big bore threaded aluminum shocks with TiN shock shafts
Graphite front and rear shock towers with multiple mounting positions	Graphite front and rear shock towers with multiple mounting positions	Graphite front and rear shock towers with multiple mounting positions
Factory Team floating aluminum motor mount and aluminum + carbon servo mounts	Factory Team floating aluminum motor mount and aluminum + carbon servo mounts	Factory Team floating aluminum motor mount and aluminum + G10 servo mounts
Center slipper clutch with LCF pads	Center Differential	Center differential
Team Associated clear body and screw-mounted wing by JConcepts™	Team Associated clear body and screw-mounted wing by JConcepts™	Team Associated clear body and screw-mounted wing by JConcepts™
Hard-anodized narrow aluminum chassis with lightweight plastic side guards	Hard-anodized narrow aluminum chassis with lightweight plastic side guards	Hard-anodized narrow aluminum chassis with lightweight plastic side guards
Front and rear anti-roll bars	Front and rear anti-roll bars	Rear anti-roll bar
Factory Team ball bearing kit included	Factory Team ball bearing kit included	Factory Team ball bearing kit included
12mm aluminum drive hexes in both front and rear	12mm aluminum drive hexes in both front and rear	12mm front aluminum hex, 12mm rear composite hex
B6 ball cups and turnbuckles	B6 ball cups and turnbuckles	B6 ball cups and turnbuckles
Front and rear gear differentials with a slipper clutch	3 gear differentials	3 gear differentials with lightweight internal gears
Option to mount rear shocks on either the front or rear of the rear suspension arms	Option to mount rear shocks on either the front or rear of the rear suspension arms	Option to mount rear shocks on either the front or rear of the rear suspension arms
no motor	no motor	Reedy Sonic 540 13.5 Fixed Timing motor
Bolt-on steering block arms offer increased adjustability	Bolt-on steering block arms offer increased adjustability	Bolt-on steering block arms offer increased adjustability
no ESC	no ESC	Reedy Blackbox 600Z Zero Timing Sensored Brushless Competition ESC
All metric hardware	All metric hardware	All metric hardware
no servo	no servo	Reedy 0712MG Metal Gear Digital Servo
Adjustable ride height, camber, toe, wheelbase, caster, axle height, bump steer spacing, arm mounts, hub spacing, rear hub link settings, etc.	Adjustable ride height, camber, toe, wheelbase, caster, axle height, bump steer spacing, arm mounts, hub spacing, rear hub link settings, etc.	Adjustable ride height, camber, toe, wheelbase, caster, axle height, bump steer spacing, arm mounts, hub spacing, rear hub link settings, etc.
optional Factory Team parts available	optional Factory Team parts available	optional Factory Team parts available
