

For Immediate Release: Jan. 14, 2015

Reedy SC800-BL Sensorless Brushless RTR ESC

Reedy's all-new SC800-BL Brushless ESC is splash-proof for maximum durability and features a compact footprint that allows for easy installation in most 1:10 vehicles. The latest electronics technology along with the design and engineering experience that is responsible for 29 World Championship titles has been incorporated into its design.

The SC800-BL is standard equipment in Team Associated's ProSC 4x4 and is the perfect replacement for your 1:10 RTR ESC thanks to its ease of setup and no-nonsense forward/brake/reverse operation. When paired with Reedy brushless motors, a potent combination of power and efficiency is created, resulting in quick acceleration, high top speeds, generous run times, and more fun!

Features

- LiPo low-voltage cutoff protection
- LiPo cell auto-detect
- Fully proportional brakes
- Durable case with aluminum heat sink
- Pre-wired cooling fan
- Splash-proof
- Heavy duty silicone wires
- Low-resistance T-plug connector
- 3.5mm motor connectors

Specifications

Cells	2-3 LiPo, 6-9 NiMH	
Suggested Applications	1:10 On-Road, Off-Road	
Resistance	0.0004 ohm	
Brakes	Proportional	
Motor Limit	2S LiPo, 6-7 NiMH	2-Pole 6000kV, 4-Pole 4000kV
	3S LiPo, 9 NiMH	2-Pole 3300kV, 4-Pole 3500kV
Reversible	Yes	
Low Voltage Cutoff	Yes, with Cell Auto-Detect	
Dimensions (mm)	48.3 x 36.5 x 35	
Weight	87.5g	
Power Wires	14-gauge silicone	
Connector	Battery: T-plug, Motor: 3.5mm sockets.
