Reedy 6500mAh 65C 14.8V Competition LiPo Battery

Reedy's 6500mAh 65C 14.8V competition LiPo battery is all-new for the 2015 racing season. Competition-tested and developed by the racing team, this battery features high capacity for maximum duration on large 1:8 tracks, with a 65C rating for maximum power output.

Designed specifically for competition 1:8 electric buggies and truggies, this battery fits a variety of chassis brands. Reedy's molded hard case protects against crash damage and a T-plug connector minimizes resistance and increases power output.

Reedy once again delivers world-class performance and reliability to racers worldwide.
