## New! Reedy Blackbox 800Z ESC / Sonic 540-M3 Combos

Due to popular demand, Reedy's Blackbox 800Z ESC and Sonic 540-M3 Spec motors are now available in combo form!

Track tested and competition proven, Reedy's Blackbox 800Z Zero-Timing Sensored Brushless Competition ESC is a simple-to-use, economical, and powerful ESC for Spec class racers. Excellent throttle and brake feel, a wide range of adjustability, and robust hardware make the Blackbox 800Z suitable for a variety of Spec racing applications.

Sonic 540-M3 Spec motors walk the edge of legality in exchange for maximum power output and RPM thanks to an all-new stator design, pure copper magnet wire, and low-resistance collector rings. Available short-stack versions suit 1S-powered pan cars, and under the right circumstances can create a power advantage in 2S-powered buggies, trucks, touring, and pan cars.
