## New! Reedy Zappers SG Competition HV-LiPo Batteries

# BACK IN STOCK AND SHIPPING

The all-new Reedy Zappers SG HV-LiPo batteries have arrived! Its silicon graphene construction lowers internal resistance, increases voltage output, reduces operating temperatures, and improves cycle-life. Zappers SG batteries are now available in low-profile (LP) stick and shorty versions as well as a 1S version designed for 1:12 and other classes that require the use of a 1S battery!

Zappers SG perfectly describes Reedy's high voltage LiPo battery chemistry! A 7.6 nominal voltage means that with a suitable charger, the battery can be safely charged to 4.35V/cell. It is not a secret that more voltage equals more power so there is no easier way to achieve a performance advantage than pairing silicon graphene construction with a higher charge voltage!

However, even when the typical 8.4V (4.2V/cell) charging limit is enforced, Zappers SG still offers a significant advantage thanks to a flatter discharge curve, which results in more voltage deeper into the race.

A high-quality, durable hard case helps prevent damage while embedded socket connectors keep power-robbing resistance to a minimum. Male ESC connectors are included.

LiPo battery technology continues to progress and Reedy is proud to bring improved performance to the masses.

## Reedy Zappers SG Competition HV-LiPo Batteries

### Features

- Silicon Graphene HV-LiPo chemistry
- Extended cycle-life
- Reduced IR
- Durable hard case
- Built to ROAR/EFRA/BRCA/IFMAR specifications

### Specifications

|                   |                 |                 |                |                |                |                |                |
|-------------------|-----------------|-----------------|----------------|----------------|----------------|----------------|----------------|
| Model Number      | 27320           | 27321           | 27322          | 27323          | 27324          | 27325          | 27326          |
| Capacity          | 8200mAh         | 6000mAh         | 4800mAh        | 5800mAh        | 3600mAh        | 4000mAh        | 8200mAh        |
