New! Reedy Blackbox 600Z Zero-Timing Sensored Brushless Competition ESC

Reedy's all-new Blackbox 600Z Zero-Timing Sensored Brushless Competition ESC is the perfect entry-level spec class ESC thanks to its economical price, versatility, and race-proven performance. Excellent throttle and brake feel, a wide range of adjustability, and robust hardware make the Blackbox 600Z suitable for a variety of spec racing applications, including entry level and cost-controlled spec race programs that mandate a specific ESC.

Features

- Lightweight plastic case with compact footprint
- Low-profile heat sink
- Fully adjustable brake and throttle functions
- On-board, single-button programming
- Zero-timing, ROAR approved software
- Low-resistance circuitry
- Precision throttle and brake control
- Solder tabs for easy wire placement
- Silicone power wires
- Compact external capacitor
- Firmware updateable
- Competition proven

Adjustable Settings

Operation Mode – Select Forward/Brake (F/B) or Forward/Brake/Reverse (F/B/R) operation.

Drag Brake – Adjust automatic braking strength when the throttle trigger is returned to neutral.

Power Profile – Increases or decreases punch.

Drive Frequency – Adjust to create a smoother or more aggressive throttle feel.

Brake Frequency – Adjust to create a smoother or more aggressive brake feel.

Restore Default – Restore the factory default settings.
