For Immediate Release: Sept. 18, 2017

New! Reedy Sonic 540-FT 21.5T Fixed-Timing Competition Brushless Motor

Thanks to positive feedback from our customers, Reedy's Sonic 540-FT motor is now available in a 21.5-turn version! Because 21.5-turn motors are commonly used in GT and Formula classes, and emerging as the entry-level option for the Touring Car class, they are becoming increasingly popular among racers.

Eliminate the "motor-of-the-week" madness infecting the stock classes! Designed for performance and value, the Sonic 540-FT is the perfect motor for racers, clubs, and racing series that want to equalize performance among participants at an economical price.

Features

- CNC-machined lightweight can
- Solder tabs
- Dual precision ball bearings
- High-strength, balanced rotor
- Fixed timing 45°
- Completely rebuildable
- ROAR approval is pending
